MINISTRY OF COMMERCE

NOTIFICATIONS

New Delhi, the 27th January 1968

S.O. 371.—In exercise of the powers conferred by section 6 of the Export (Quality Control and Inspection) Act, 1963 (22 of 1963), and after previous publication as required by rule 11 of the Export (Quality Control and Inspection) Rules, 1964 the Central Government hereby—

- (1) notifies that the stainless steel utensils shall be subject to quality control and inspection prior to export;
- (2) specifies the type of inspection in accordance with the Export of Stainless Steel Utensils (Inspection) Rules, 1967 as the type of inspection which will be applied to such stainless steel utensils;
- (3) recognises—
 - (a) the specifications, which shall be a national standard of a foreign country, declared by the exporter as the agreed specification of the export contract, or
 - (b) in the absence of any specifications as mentioned in (a) above, the specifications as set out in Annexure I to this notification, or
 - (c) the Indian Standards Specifications for stainless steel utensils wherever issued by the Indian Standards Institution, as the standard specification for stainless steel utensils.
- (4) prohibits the export, in the course of international trade, of stainless steel utensils unless the consignment of such stainless steel utensils is accompanied by a certificate issued by an agency recognised by the Central Government under section 7 of the Export (Quality Control and Inspection) Act, 1963 (22 of 1963), to the effect that the same

conforms to the standard specifications under (3), above, and the instructions issued by the Export Inspection Council in this behalf, or it has affixed or applied to it a mark recognised by the Central Government under section 8 of the said Act, indicating that it conforms to the standard specifications applicable to it.

2. Nothing in this notification shall apply to the export by land, sea or air of samples of stainless steel utensils to prospective buyers, provided the F.O.B. value of the consignment does not exceed rupees one hundred and twenty five.

3. In this notification "stainless steel utensils" shall mean any kind of utensils or vessel for domestic or other allied use made from stainless steel.

4. This notification shall come into force on the 1st March, 1968.

Specification for stainless steel utensils

1. Material

1.1. The material used for the manufacture of utensils shall be of stainless steel conforming to Designation 04 Cr. 19 Ni 9 or 07 Cr. 19 Ni 9 of schedule V of IS: 1570—1961—Indian Standards Schedules for wrought steels for general engineering purposes or any other equivalent national standard.

1.2. The thickness of the sheet used shall be subject to agreement between the buyer and the seller.

a. Shapes and Dimensions

2.1. The shapes and dimensions of utensils shall be subject to agreement between the buyer and the seller. The dimensions shall have the following tolerances:

Over	Upto and including	Tolerances
mm.	mm	mm.
—	50	±1
30	100	±2
100	200	±3
200	—	±5

3. Workmanship and Finish

3.1. Edges of the utensils shall not be left sharp. The utensils shall be finished bright all over. The utensils shall be free from distortion, dents, wringles, scratches, pittings, deep tool marks and other surface defects.

4. Test

4.1. Staining Test.—The materials of the utensils, when immersed for 16 hours in each of the following solutions, shall not show any sign of staining after removal from each solution at the end of the above period, namely:—

- (a) Ten grams of glacial acetic acid (99 per cent) dissolved in distilled water to make 100 ml. and;
- (b) Five grams of pure sodium chloride, dissolved in distilled water to make 100 ml.

5. Marking

5.1. Unless otherwise stipulated by the buyer, utensils shall be legibly marked at the bottom with the manufacturers name, trade mark or identification mark. Utensils shall be marked 'stainless steel'. The impression of the marking shall not show up on the other side.

6. Packing

6.1. The package shall be well finished and have a good presentability. The inner contents of the package shall be so packed as to withstand the following tests as given below.

6.1.1. Drop Test (for head load upto 37 kg. only)

One package shall be dropped from a height of 120 cm. once on the largest flat surface, once on the longest edge and once on any corner of its own.

6.1.2. Rolling Test (upto 500 kg. only).

One package shall be subject to rolling on its sides either six metres forward and six metres backward or twelve metres in one direction only.

6.1.3. Water Spraying Test

One package shall be allowed to be exposed against a water spray equivalent to a normal sudden monsoon shower for five minutes.

7. Sampling and Criteria for conformity

7.1. Sampling for inspection of each consignment and the criteria for conformity shall be in accordance with the scale prescribed in the Table below:

7.2. In any consignment, all the stainless steel utensils of the same type and size, shall be grouped to constitute a lot, except for destructive test where all types and sizes made of same material shall be grouped to constitute a lot.

Lot size	Sample size		Permissible No. of defective	
	A	B	A	B

[No. 60(31)Exp.Insp/87.]

S.O. 372.—In exercise of the powers conferred by section 17 of the Export (Quality Control and Inspection) Act, 1963 (22 of 1963), the Central Government hereby makes the following rules namely:—

1. **Short title and commencement.**—(1) These rules may be called the Export of Stainless Steel Utensils (Inspection) Rules, 1967.

(2) They shall come into force on the 1st March, 1968.

2. **Definition.**—In these rules “stainless steel utensils” shall mean any kind of utensils or vessel for domestic or other allied use made from stainless steel.

3. **Basis of Inspection.**—(1) Inspection of stainless steel utensils intended for export shall be carried out with a view to seeing that the stainless steel utensils conform to the specifications recognised by the Central Government under section 6 of the Export (Quality Control and Inspection) Act, 1963 (hereinafter referred to as the recognised specifications) or, as the case may be, any other additional requirements stipulated by the buyer in the export contract.

(2) No further inspection would, however, be necessary under these rules in the case of such stainless steel utensils as bear the Indian Standards Institution Certification Mark.

4. **Procedure for Inspection.**—(1) An exporter intending to export stainless steel utensils shall give intimation in writing of his intention so to do and submit along with such intimation a declaration of the specifications stipulated in the export contract to any of the inspection agencies (hereinafter referred to as the agency), recognised under section 7 of the Export (Quality Control and Inspection) Act, 1963 (22 of 1963) to enable it to carry out the inspection in accordance with rule 3.

(2) Every intimation and declaration under sub-rule (1) shall reach the office of the Agency not less than ten days before the scheduled time of loading of the

consignment of stainless steel utensils for shipment and a copy of such intimation shall also be simultaneously endorsed to the nearest office of the Export Inspection Council.

(3) On receipt of the intimation and declaration under sub-rule (2), the Agency shall carry out the inspection of the stainless steel utensils during the process of manufacture or when the consignment is ready, as the case may be, in accordance with rule 3.

(4) If after inspection, the Agency is satisfied that the stainless steel utensils to be exported comply with the requirements of rule 3, and the instructions issued by the Export Inspection Council in this behalf, it shall, within seven days of the receipt of intimation and declaration under sub-rule (2), but not later than 72 hours after completion of the inspection, issue a certificate to the exporter declaring the consignment as export-worthy.

5. Procedure for affixation of recognised mark.—The provisions of the Indian Standards Institution (Certification Marks) Act, 1952 (36 of 1952), the Indian Standards Institution (Certification Marks) Rules, 1955, the Indian Standards Institution (Certification Marks) Regulations, 1955 and the procedure laid down by the Indian Standards Institution in this behalf shall, so far as may be, apply to the inspection of stainless steel utensils prior to export.

6. Place of Inspection.—Every inspection under the rules shall be carried out either—

(a) at the premises of the manufacturer, or

(b) at the premises at which the goods are offered by the exporter, provided adequate facilities for the purpose exist therein.

7. Inspection Fee.—Subject to a minimum of Rs. 50/- a fee at the rate of twenty paise for every one hundred rupees of the F.O.B. value of each such consignment shall be paid as inspection fee for inspection of stainless steel utensils under rule 4 of these rules.

8. Appeal.—(1) Any person aggrieved by the refusal of the Agency to issue a certificate under sub-rule (4) of rule 4 may, within ten days of receipt of communication of such refusal by him, prefer an appeal to a panel of experts consisting of not less than three persons appointed for the purpose by the Central Government.

[No. 60(31)Exp.Insp/67.]

S.O. 373.—In exercise of the powers conferred by section 7 of the Export (Quality Control and Inspection) Act, 1963 (22 of 1963), the Central Government hereby recognises the following organisations mentioned in the schedule annexed hereto as the agencies for the inspection of stainless steel utensils prior to export subject to the condition that every such organisation shall give adequate facilities to an officer of the Export Inspection Council duly authorised by the said Council to examine the method of inspection followed by that organisation in granting the certificate under sub-rule (4) of rule 4 of the Export of Stainless Steel Utensils (Inspection) Rules, 1967.
